

Symphony Euphonium

Endorsed by Michael Dodd - World renowned soloist and solo euphonium with the Grimethorpe Colliery Band

14.73mm (.580") bore

Floating lead pipe allows bell to vibrate, enhancing "singing" tone (optional)

Fixed Leadpipe allows a darker sound (optional)

12" Bell diameter

Yellow brass bell, body and lead pipe

Unique designed slide stays giving more security to sound and direction

Bell rim rolled and soldered over brass bell wire - adds strength and protection to bell

Main Tuning Slide Trigger (optional) allows greater flexibility for tuning

4 bottom sprung stainless steel valves for faster action

New and improved 4th valve slide lock

All screws made from high grade stainless steel and formed for finger use rather than a screw driver

3 water keys including 3rd valve slide

Nickel silver tuning slides - resists corrosion

Synthetic rubber water key seals give a perfect seal

2nd valve finger ring

Spring damper set for quieter valve action

Silver or Lacquer finish

Choice of different finishes

Options*:

Carbon Fibre Belly Guard

Carbon Fibre Inlaid Finger Buttons

Carbon Fibre Inlaid Trigger Arm Thumb Plate

*extra cost will apply
